**REPORT BY THE DEPARTMENT OF STATE
PURSUANT TO SECTION 655 OF THE FOREIGN ASSISTANCE
ACT OF 1961, AS AMENDED**

Direct Commercial Sales Authorizations for Fiscal Year 2010

Overview

This report covers defense articles and defense services licensed for permanent export during Fiscal Year 2010 under Section 38 of the Arms Export Control Act, as amended. It is provided pursuant to Section 655 of the Foreign Assistance Act of 1961, as amended. The report specifies the aggregate dollar value and quantity of defense articles and defense services, by category, authorized to each foreign country, including any international organizations operating in each country, as well as data on the actual shipments occurring during the Fiscal Year. Actual shipment data contained herein shows the total dollar value of all shipments to each destination. Authorizations in this report are categorized based on the destination country licensed. This includes articles exported for use by U.S. Government agencies within the country of export as well as articles exported for use by U.S. and Allied forces operating on foreign soil.

In accordance with subsection (c) of Section 655, this report is also being made available to the public on the Internet through the Department of State, Directorate of Defense Trade Controls, at www.pmdtdc.state.gov.

Authorizations applicable to multiple countries are included under the designation "Various". Since documentation for shipping purposes requires a definitive destination be declared, actual shipments for those articles approved under the designation "Various" are attributed to the country listed on the shipping documentation. Actual shipments for articles approved for the United Nations are attributed to the country in which the UN will utilize the items.

Importantly, the value of authorizations provided under Section 38 for defense articles and defense services does not precisely correlate to the value of articles actually transferred during this same time frame. Most licenses issued for articles are valid for four years and may be used throughout the period of validity to carry out the authorized export transactions. Similarly, manufacturing license and technical assistance agreements cover a wide range of programmatic activities for multi-year periods (generally exceeding the four-year validity period of defense

article export licenses). Because the scope of the Department's regulatory authority over such agreements continues for as long as these multi-year agreements remain in effect, export authorizations furnished in Fiscal Year 2010 also include certain activities occurring in prior years.

This document reports data on defense articles authorized by USML Category, aligning the report with the statutory requirements. Previously, data was reported at the USML Sub-category level, providing readers with more insight on authorizations for end items versus authorizations for parts and components. For example this document reports that 46,280 Category I (Firearms) articles were authorized for Brazil; of those articles, 982 (2%) were firearms and the balance of 45,298 are parts and technical data for firearms. Similarly, of the 1,064,921 Category I articles authorized for Austria, 2,963 (0.03%) are firearms; for the United Kingdom, of the 1,354,562 articles authorized for export, 33,786 (2.5%) are firearms.
